# MASTERSOLUTION SHOW

## Mobile 3D Filmstudio

Produce explanation videos yourself without any technical knowledge

With Mobile 3D Filmstudio MASTERSOLUTION SHOW, quickly produced umpteen videos in TV quality. Usage of this solution is easy and without the need of technical knowledge. With MASTERSOLUTION SHOW, you can choose from different virtual studios (templates) and a custom client specific design (CI) can be created with just a few settings. Useful features like the animated virtual camera provide design flexibility and make the produced explanation videos much more lively. Existing videos can be imported into the presentation and played back as a presentation slide, or even in Fullscreen mode. The presentation is controlled easily via a Tablet (Setcard functionality).

## Characteristics

The hard - and software package is ready for immediate use and requires no installation. Films can be produced in real time and without any previous knowledge.

### Import presentations, videos & animated CAD data

With the help of MASTERSOLUTION SHOW, existing PowerPoint slides, videos and animated CAD data can easily be imported and optimised with numerous 3D-animated blend effects.

### Individual Studio layouts

The solution offers custom Studio layouts in your own corporate design as well as a large selection of Studio templates with individual options for graphical adaptation.

### Record

MASTERSOLUTION SHOW allows for automatic film editing with slide repetition by slips. Time-consuming rendering is eliminated as the film is fully completed immediately after finishing the recording.

## Highlights

- virtual animated camera
- Film-in-Film-feature
- display videos and PPT slides in fullscreen mode
- Customised Studio layouts (own corporate design)
- direct interface to the video management system (MASTERSOLUTION VMS)
